Known collectively as The Truro Center for the Arts at "Castle Hill" was established in 1971 by a group of committed Cape Cod artists transformed the nineteenth century barn into an art educational and community center in Truro, Massachusetts. Forty-three years later, Castle Hill continues to provide

workshops, lectures, exhibitions, events and employment opportunities for residents and visitors in a relaxed, non-competitive environment that is conducive for learning about and creating art. The workshop curriculum offered at the Castle Hill Campus is for the beginner, intermediate or professional artist and allows students to explore a wide range of artistic mediums including painting, drawing, printmaking, photography, ceramics, sculpting, writing, mixed media visual arts, and culinary arts.

The Center is looking into the feasibility of a new residency to be held at the Edgewood Farm in Truro, Massachusetts. The new program will work in collaboration with our distinguished educational facility at the Castle Hill Campus, whose mission is to foster the arts for the local and regional community. ***The Truro Center for the Arts at Edgewood Farm*** will provide artists a beautiful place to work for an extended period of time. Edgewood Farm will strive to bring a broader artistic cultural conversation to the local community and economy of the Outer Cape, with artists from around the country and the world creating unique contemporary works of art.
