May 2013

## **Dig Into Reading Update: WE DID IT!**

As of May 31, TCS students have surpassed their 1,000 books reading goal. Our final count was 1,124 books.

Because we met our school-wide goal, students will receive a special prize. ZUMBA instructor and TCS parent Julie Rich will conduct a special Physical Education class with TCS PE teacher Arlene Estey. Students will move to the ZUMBA beat in this fun and engaging activity.

## **PEEP! PEEP! It's chick time!**

Each spring, the TCS preschool students get an up-close and personal chick experience. The entire first part of a chicken's life cycle is studied from hens laying the eggs, to incubation, to hatching. This year, the addition of an ovascope allowed an "inside look" of the development of the chicks.

Two chicks hatched this year. Eventually, the chicks will choose their names when each walks to a piece of paper with a name on it. The list of 17 possibilities includes "Hot Dog", "Fred", "Chickie," and "Professor Bumblebee".

*Some "chick facts" provided by students:*

"When they get bigger, they go on the farm." -Coco  
"Chicks need food and water to survive." -Ashley  
"Eggs were in the incubator for 21 days." -Josh  
"You can't touch the chicks when they're in their box. It's their safe place." -Addie  
"The chicks like to step in their food dish." -Chet

## SPRING CONCERT

Special thanks to all who came out to listen to the melodious sounds of our TCS musicians!
